

UTAH OFFICE OF
ENERGY DEVELOPMENT

October 17, 2023 | NASEO Annual Meeting
Gregory Todd | Governor's Energy Advisor, Director

Geothermal Energy: Sleeping Giant? – Harnessing the Earth's Heat for Buildings, Communities, and the Grid

energy.utah.gov

Welcome & Introductions

Greg Todd

Director of the Utah Office of
Energy Development
Governor's Energy Advisor

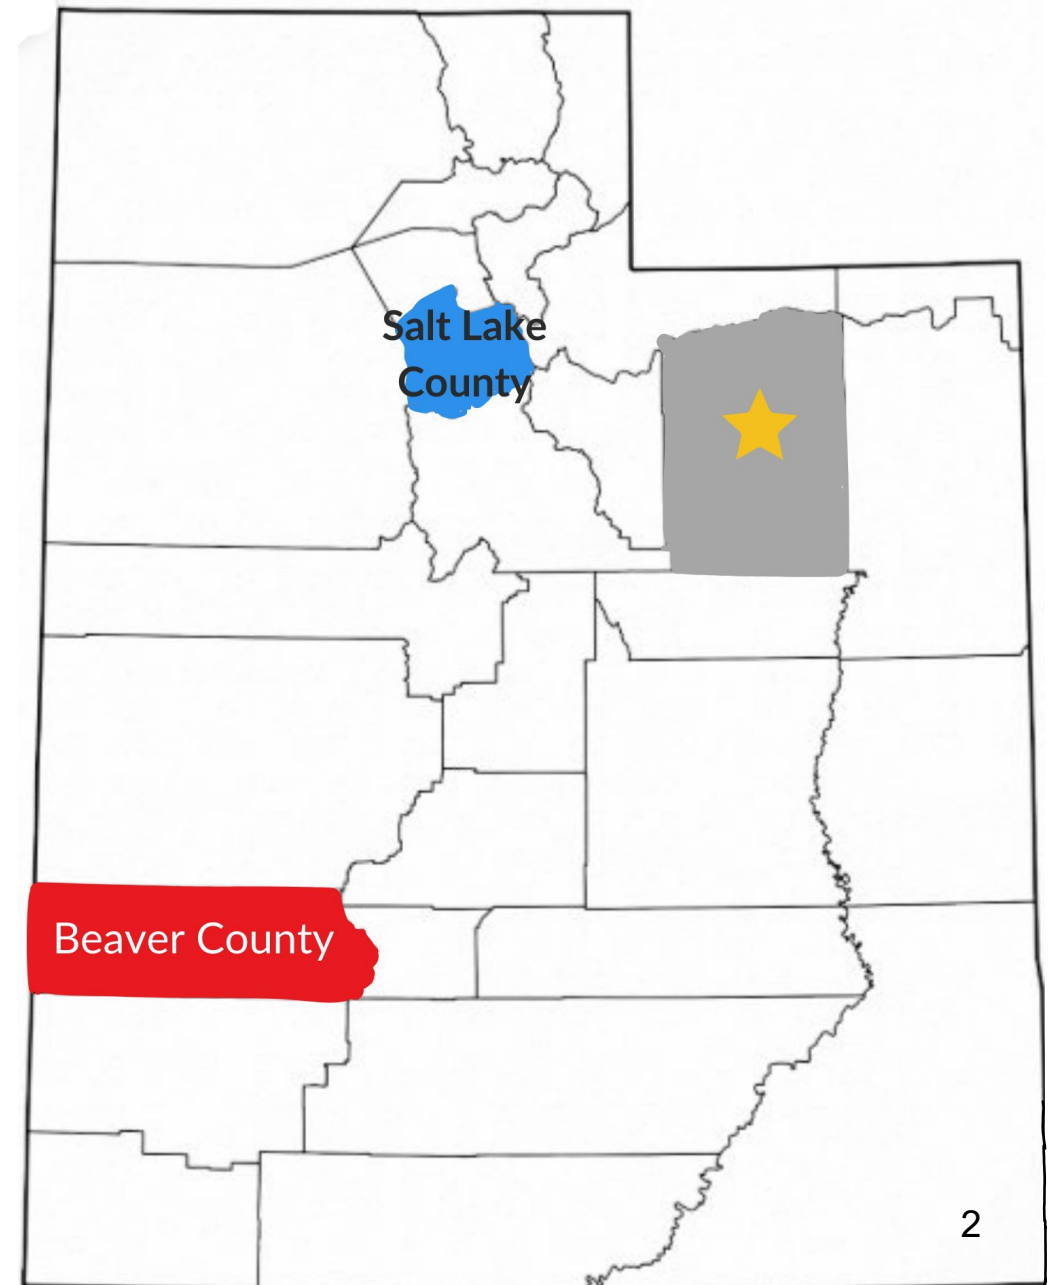

Joseph Moore

Managing PI of Utah FORGE
Research Professor in the University
of Utah Department of Civil and
Environmental Engineering

Will Toor

Executive Director of the
Colorado Energy Office

- Utah: Traditional + Innovation
- Any of the above
- Vast tracts of land & natural resources
- Geothermal:
 - **4th** largest share of utility-scale renewable energy
 - 3 geothermal plants produced **10% of the total** utility-scale renewable generation
 - **45,000 homes**
- Beaver County has 5 renewable energy projects within a 50-mile radius
 - 1 Hydropower plant
 - 2 Wind Farms
 - 9 solar projects
 - 3 geothermal plants
- 3 Geothermal Plants
 - Blundell
 - Enel – Sulphurdale
 - CYRQ

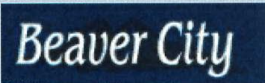

Snapshot of Renewables in Utah

Renewable Energy Portfolio

Name	Type	MW produced	Year Built
 Beaver City	Hydroelectric	3.2	1908
 ROCKY MOUNTAIN POWER	Geothermal	37	1984
 Cyro Thermo	Geothermal	11	2006
 longroad ENERGY	Wind Farm	306	2008-2010
 MONTROSE ENVIRONMENTAL	Biogas	5	2011
 Enel Green Power	Geothermal	25	1990, 2012
 Dominion Energy  longroad ENERGY	Solar	447	2014-2020
 UTAH FORGE U.S. Department of Energy	Geothermal R & D Laboratory		2019
	TOTAL	834	Power for 250,800 Homes (1MW=300homes)

Utah FORGE

- FORGE: **F**rontier **O**bservatory for **R**esearch in **G**eothermal **E**nergy
- Funded by DOE
 - Developing + Testing = Accelerating
 - Close to the Mineral Mountains
- Underground lab
- Multiple stakeholders

Fervo Energy

- First large scale enhanced geothermal project
- Phase I: 2026 / 90 MW
- Phase II: 2028 / 283 MW
- A collaboration

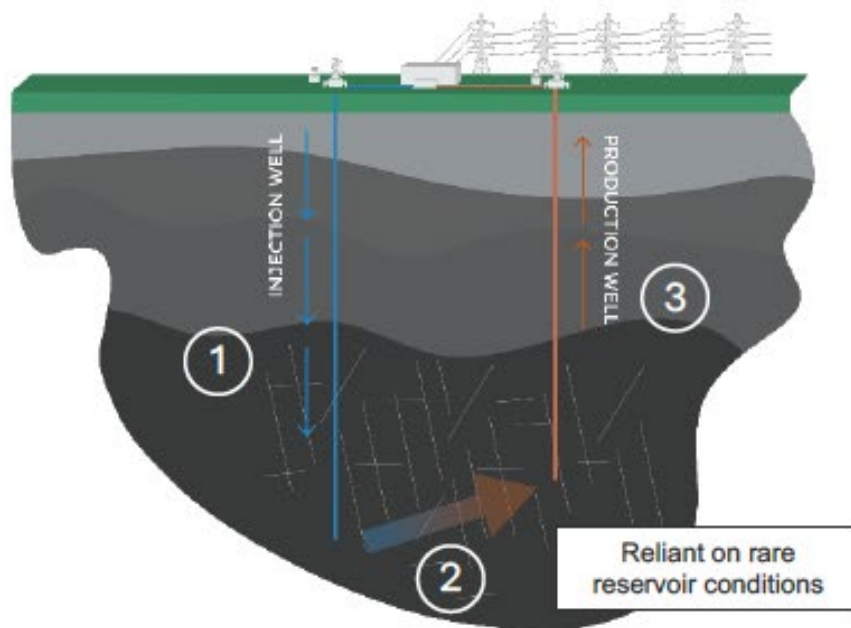

Fervo Innovation

Fervo Energy's Next-Gen Geothermal Approach

Traditional Approach

Next-Gen Approach
